

Tennessee Valley Railroad Museum

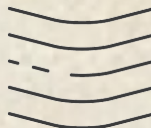

Photo from tennesseerivervalleygeotourism.org

The Tennessee Valley Railroad Museum www.tvrail.com operates over former Southern Railway right-of-way that includes a 986-foot-long tunnel through Missionary Ridge that was constructed in the 1850s – before the Civil War!

Field Course 2 will ride TVRM's Missionary Ridge Local in a vintage coach car and include the opportunity to disembark and walk through this historic tunnel.

You can see the tunnel in the music videos for [*Trying to Stop Your Leaving*](#) by Dierks Bentley and [*Creepin'*](#) by Eric Church.
