

# Lookout Mountain Adventures

*The Westin Chattanooga (site of the Annual Meeting) with Lookout Mountain in the background*

Overlooking Chattanooga is Lookout Mountain – home to interesting geology and several popular tourist attractions.

- [The Incline](#) is a mile-long funicular railway to the summit.
- [Rock City](#) features a walking path lined with gardens through natural rock formations (Pennsylvanian sandstone).
- Within [Ruby Falls Cave](#) (Mississippian carbonate) is the tallest (publicly accessible) underground cave waterfall in the U.S.

***Field Course 3 will visit each of these locations (as well as Point Park) on Saturday, September 19.***
