

CALL FOR ABSTRACTS

Dams and Levees Symposium

The Dams and Levees Technical Working Group of the Association of Environmental and Engineering Geologist (AEG) is currently accepting abstracts for presentation in the 18th Dams and Levees symposium that will be a part of the 2025 AEG Annual Meeting. The 2025 AEG Annual meeting will be held in Chicago, Illinois from September 23-27.

The TWG is interested to hear about hazards at dams and levees and lessons learned that could benefit the community. What a great opportunity to showcase interesting projects, broaden our technical skillsets, make new connections, and collaborate with our peers!

Suggested topics include (but are not limited to):

- Dam and levee geologic-related case histories
- Geologic hazard remediation at dams and levees
- Seismic assessment and remediation
- NFIP risk assessments for levees
- Geology-related breach analysis
- Unrecognized hazards identified during construction
- Resiliency to extreme conditions for dams and levees
- Geophysical investigations at dams and levees
- Unexpected dam performance issues and investigations
- Risk assessments for dams, floodwalls, or levees
- Innovative risk management measures
- Paleohydrologic or paleoseismic studies
- Environmental considerations for dam breach or dam removal/decommissioning

Submit abstracts to <https://www.aegannualmeeting.org/technical-program> by May 1, 2025. Please follow the criteria found on the conference website and ALSO submit a copy of your abstract via email to:

- Matt Huebner at mthuebner@tva.gov
- Erik James at erik.w.james@usace.army.mil

Abstract submissions will be reviewed and selected for presentation by the Dams and Levees Technical Working Group. Notifications are anticipated to be provided to authors via email in July 2025. Authors should plan to attend the annual meeting.
